

BLEndicator is a wireless test indicator with remote readout. With its compact design, BLEndicator can fit into a borehole as small as 1.5" dia. Thanks to its Bluetooth connectivity, stylus movement can be directly read out on iPhone/iPad/Android/Windows PC, making it easier and faster to take measurements at hard to read locations.

Specifications

- Dimension: 4.05" x 1.31" x 0.85" (maximum)
- Stylus length: 0.78"
- Measurement Range: 0.17"
- Resolution: 0.0001"
- Accuracy: 0.0006"
- Wireless Communication Range: up to 10 m (line of sight)
- Wireless Data Rate: 8 samples/sec
- Working Temperature: 0-50 °C
- Power Supply: Rechargeable LiPo battery
- Battery Life: 10 hours
- Charging: 5 VDC USB and 110 VAC

Applications

- Crankshaft Deflection Test
- Rotor Runout Test
- Bore Measurement
- Surface Profile Test

Apps Features:

- Free engineering Apps/Software iOS/Android/Windows
- No receiver needed for iOS/Android devices
- Only a small USB dongle required for Windows
- Multiple devices simultaneous reading
- Max, Min, TIR
- Data record and CSV export
- Keyboard input for Excel/Notepad on PC
