Quick Start

- Insert CR2032 coin battery into dial indicator if it's a first-time use.
- Short press Zero/ON button to turn on BlueDial Flat.
- Make sure blue LED is flashing.
- Run one of the apps, then tap + button to enter pairing page.
- Wait for the software to finish scanning nearby devices, then select **BlueDialFTxxxx** to connect.
- Once paired, BlueDial Flat readings show in the software.
- To turn off BlueDial Flat, long press the Zero/ON button.
- Bluetooth transmitter goes to sleep after 3 minutes if there is no connection. To wake up the Bluetooth transmitter, turn BlueDial Flat off for at least 5 seconds and then turn it back on.
