

# WIRELESS BENKELMAN TEST KIT

Bluetooth Low Energy

High-accuracy laser sensor

Rechargeable

Visible laser dot

Multi-gage capability

Multi-platform software capability

Continuous recording and plotting

Data Saving

## Precise measurement. Entirely wireless.

Scan to find out more

Motionics' wireless Benkelman test kit makes pavement deflection testing easy. With a Bluetooth dial to monitor deflection, a Bluetooth laser measure to monitor distance, and our free software, MultiGage, to read and record measurements remotely, deflection testing can be faster, simpler, and safer.

MultiGage is free to download for iOS, Android, and Windows.
